Accommodation without Adaptations

There is a variety of Lodge styles and types, ranging from one bedroom Apartments, through to four bedroom Exclusives.

There is a mixture of single storey and two storey accommodation.

Due to the forest location, paths to Lodges may be narrow, long, steep or stepped.

Parking for these Lodges is in the main car park (with the exception of some Exclusive and Executive accommodation).

Internally, accommodation may not provide wheelchair access into any or all of the rooms. Manoeuvring space is restricted and bathrooms and kitchens are not adapted. If you require further information upon a particular Lodge and its location please enquire at time of booking.

Whirl Pool Baths

If the jets in the Whirl pool baths which are fitted in some of our accommodation are continually covered for significant lengths of time they become hot.

This may make the bath unsuitable for guest with a sensory impairment who would fail to detect the gradual warming without supervision.

For guests with lower limb mobility restrictions (or particularly for those with lower limb mobility restrictions accompanied by sensory impairment) extreme care must be exercised in using the aeration function on the baths.
