

Enchanted Garden

Located next to Activity Den Building and along the road from Action Challenge and Santa's Woodland Workshop/The Rangers Lodge. Grid reference 6D

The activity is suitable for all guests, it is level access from a tarmac roadway, this then takes you into a winding semi-prepared path constructed of compressed stone. It is guided by a rope and post fence and is a suitable width and surface for the use of wheelchairs & mobility scooters. Although not supervised, the trail is generally a one-way system and is approximately 120m in length, the gate width opening is 92cm and path width 125cm.

Flashing and bright lights are a fundamental element of this experience. However, Center Parcs has received advice that photosensitive epilepsy is most likely to be triggered by (among other things) lighting flashing/strobing at a rate of 2hz (2 times per second over an extended period of time). The lights on the trail have been programmed avoiding this rate and do not continually flash for extended periods of time.

The closed accessible toilets are in the Sports Café or the Sports Zone within the Sports Plaza.
