

Enchanted Light Garden

Level access is gained from the main block paved footpath at Village Square. This then takes you onto a winding semi-prepared path constructed of compressed stone and topped with fine stone/dust. Suitable width and surface for the use of wheelchairs & mobility scooters. Although not supervised, the trail is generally a one-way system and is approximately 100m in length.

Flashing and bright lights are a fundamental element of this experience. However, Center Parcs has received advice that photosensitive epilepsy is most likely to be triggered by (among other things) lighting flashing/strobing at a rate of 2hz (2 times per second over an extended period of time). The lights on the trail have been programmed avoiding this rate and do not continually flash for extended periods of time.

The closest accessible toilet is located at the Village Square, within Foresters Kitchen and Terrace.
