Strategic report

For the 53 weeks ended 26 April 2018

The Directors present their strategic report on the Company for the 53 weeks ended 26 April 2018 (2017: 52 weeks ended 20 April 2017).

Review of the Business

The principal activity of the Company is the operation of Center Parcs Woburn Forest, a short break holiday village in Bedfordshire.

Center Parcs targets the premium sector of the UK family short break market, offering an escape from the stresses and strains of modern life and helping families come together.

Woburn Village is set in a forest environment and is open 365 days a year. Woodland, water and a natural environment are the essential elements of a Center Parcs break. Within the comfortable, quiet and family-friendly setting, the Village provides guests with high-quality accommodation and more than 150 leisure and spa activities. The focal point and key attraction of the Village is an all-weather indoor sub-tropical swimming paradise, featuring a selection of water activities including a wave pool, river slides and rides, children's pools and jacuzzis. Other on-site experiences include outdoor activities such as cycling, boating and quadbikes; indoor activities such as ten-pin bowling, badminton and pottery; and leisure amenities such as spas, dining and retail.

Financial performance

The results of the Company for the period show a profit of £4.6 million (2017: profit of £13.7 million). Adjusted EBITDA, being earnings before interest, taxation, depreciation, amortisation and exceptional/non-underlying items was £49.4 million (2017: £46.5 million).

During the period the Company incurred exceptional/non-underlying administrative expenses of £1.5 million, principally in respect of legal claims and associated settlements, and an exceptional/non-underlying finance cost of £2.3 million in respect of a refinancing of the Company's debt. Taxation on these items has also been treated as an exceptional/non-underlying item.

On 15 June 2017 the Center Parcs (Holdings 1) Limited Group ("the Group") issued £100.0 million of additional A4 secured notes, together with £730.0 million of New Class B notes, divided into £480.0 million 4.250% notes due to expire in August 2022 and £250.0 million 4.875% notes due to mature in August 2025. Part of the proceeds of these new notes were used to settle the Group's Class B2 notes, which were due to mature in August 2020.

During the prior period ending 20 April 2017, the Company incurred an exceptional/non-underlying finance expense of £0.5 million in respect of the anticipated refinancing of the Group's debt. Taxation on this expense was also treated as an exceptional/non-underlying item, as was the impact of the change in applicable deferred tax rate from 18% to 17%.

Strategic report

For the 53 weeks ended 26 April 2018 (continued)

Key performance indicators

In addition to the measure of revenue and operating margin, the Directors use the following key performance indicators to set targets and measure performance against those targets.

- Occupancy: the average number of units of accommodation occupied as a percentage of the total number available. Occupancy for the period was 97.3% (2017: 97.5%).
- ADR (Average Daily Rate): the average daily rent (excluding VAT) achieved based on total accommodation income divided by the total number of lodge nights sold. ADR for the period was £197.85 (2017: £198.24).
- RevPAL (Rent per available lodge night): the average daily rent (excluding VAT) achieved based on total accommodation income divided by the total available number of lodge nights. RevPAL for the period was £192.49 (2017: £193.30).

The key performance indicators above are in line with expectations, following the opening of an additional 57 lodges during the financial period.

Going concern

The Directors have assessed the financial position of the Company at the end of the period. In assessing the going concern of the business they have considered the projected future trading and cash flows of the business. Using the evidence available to them they have concluded that it is appropriate to present the financial statements on a going concern basis, as they consider that the Company will continue as a going concern for a period of at least 12 months from the date of signing the financial statements.

Financial risk management

The financing of the Company is managed together with that of all other Group companies. As a result there is no separate analysis of risks associated with the Company and all such risks are applicable to the Center Parcs (Holdings 1) Limited Group.

The Group finances its operations through a mixture of retained earnings and borrowings as required. Historically, the Group has sought to reduce its cost of capital by refinancing and restructuring the Group funding using the underlying asset value.

All tranches of the Group's secured debt are subject to financial covenants. The Directors have assessed future compliance and at this time do not foresee any breach of the financial covenants.

Interest rate risk

Principal sources of borrowings are fixed interest rate loan notes.

Liquidity risk

The Group maintains sufficient levels of cash to enable it to meet its medium-term working capital and debt service obligations. Rolling forecasts of liquidity requirements are prepared and monitored, and surplus cash is invested in interest bearing accounts.

Currency risk

Whilst no borrowings are denominated in foreign currencies, a number of suppliers are exposed to the Euro and US Dollar. Accordingly, wherever possible the Group enters into supply contracts denominated in Sterling. The Group does not operate a hedging facility to manage currency risk as it is not considered to be material.

Credit risk

The Group's cash balances are held on deposit with a number of UK banking institutions. Credit risk in respect of the Company's revenue streams is limited as the vast majority of customers pay in advance.

Strategic report

For the 53 weeks ended 26 April 2018 (continued)

Principal risks and uncertainties

The principal risks and uncertainties of the Company are integrated with the principal risks of the Center Parcs (Holdings 1) Limited Group and are not managed separately. Accordingly, the principal risks and uncertainties of the Group which include those of the Company are discussed within the strategic report of the Center Parcs (Holdings 1) Limited Annual Report which does not form part of this report.

Directors' report

For the 53 weeks ended 26 April 2018

The Directors present their report and the audited financial statements for the 53 weeks ended 26 April 2018 (2017: 52 weeks ended 20 April 2017).

The registration number of the Company is 07656412.

Future developments

No changes to the nature of the business are anticipated.

Financial risk management objectives

Details of financial risk management objectives can be found under the heading 'Key performance indicators', found in the strategic report, and form part of this report by cross-reference.

Dividends

No dividends were paid during the period (2017: £nil). The Directors have proposed the payment of a final dividend of £10.0 million (2017: £nil).

Directors

The Directors who served during the period and up to the date of this report, unless otherwise stated, were as follows:

M P Dalby	
C G McKinlay	(appointed 3 July 2017)
P Inglett	(resigned 4 August 2017)
Z B Vaughan	
K O McCrain	
N J Adomait	

During the period and at the date of approval of these financial statements, the Company had in place Directors' and officers' insurance.

Employees

The Company is committed to providing equal opportunities to all employees, irrespective of their gender, sexual orientation, marital status, race, nationality, ethnic origin, disability, age or religion. CP Woburn (Operating Company) Limited is an inclusive employer and values diversity among its employees. These commitments extend to recruitment and selection, training, career development, flexible working arrangements, promotion and performance appraisal.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee consultation

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is principally achieved through formal and informal briefings, the quarterly internal Group magazine 'Center Forward' and annual presentations of the financial results by the CEO. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests, via village council meetings which take place four times a year. In addition, all employees with more than six months' service receive an annual bonus related to the overall profitability of the Group.

Directors' report For the 53 weeks ended 26 April 2018 (continued)

Statement of Directors' responsibilities

The Directors are responsible for preparing the strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable IFRSs as adopted by the European Union have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure of information to auditor

In accordance with Section 418 of the Companies Act 2006, in the case of each Director in office at the date the Directors' report is approved, the following applies:

(a) so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and

(b) he/she has taken all the steps that he/she ought to have taken as a Director in order to make him/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Independent auditor

Deloitte LLP are deemed to be reappointed under section 487 (2) of the Companies Act 2006.

Independent auditor's report to the members of CP Woburn (Operating Company) Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 26 April 2018 and of its profit for the 53 weeks then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of CP Woburn (Operating Company) Limited for the 53 weeks ended 26 April 2018 which comprise the Income Statement, the Statement of Changes in Equity, the Balance Sheet, the Cash Flow Statement and the related notes 1 to 19. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the Directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The Directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Independent auditor's report to the members of CP Woburn (Operating Company) Limited (continued)

Responsibilities of Directors

As explained more fully in the Statement of Directors' responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the Directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the Directors' report.

Independent auditor's report to the members of CP Woburn (Operating Company) Limited (continued)

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Notes to the financial statements

for the 53 weeks ended 26 April 2018

1. Accounting policies

General information

The Company is a private company limited by shares, which is incorporated and domiciled in the UK. The address of its registered office is One Edison Rise, New Ollerton, Newark, Nottinghamshire, NG22 9DP.

Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations adopted by the European Union (EU) and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS.

The principal accounting policies applied in the preparation of these financial statements are set out below. All accounting policies are consistent with the prior period.

Basis of preparation

The financial statements have been prepared in accordance with IFRS and International Financial Reporting Interpretations Committee (IFRIC) and Standing Interpretations Committee (SIC) interpretations adopted by the European Union and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of derivative financial instruments. All accounting policies disclosed have been applied consistently to both periods presented.

The Company's accounting reference date is 22 April.

Going concern

The Directors have assessed the financial position of the Company at the end of the period. In assessing the going concern of the business they have considered the projected future trading and cash flows of the business. Using the evidence available to them they have concluded that it is appropriate to present the financial statements on a going concern basis, as they consider that the Company will continue as a going concern for a period of at least 12 months from the date of signing the financial statements.

Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements requires the Directors to make estimates and assumptions that affect the application of policies and reported amounts. Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

There are no critical accounting judgements in applying the Company's accounting policies.

Key sources of estimation uncertainty

Useful economic lives and residual values of property, plant and equipment and other intangible assets:

The Company reviews the estimated useful lives of property, plant and equipment and other intangible assets at the end of each reporting period. During the current period, the Directors have concluded that no revision is required to either useful economic lives or residual values of these assets.

Notes to the financial statements

for the 53 weeks ended 26 April 2018 (continued)

1. Accounting policies (continued)

Revenue

Revenue relates to accommodation rental income on holidays commenced during the period, together with other related income that primarily arises from on-village leisure, retail and food and beverage spend.

Revenue relating to accommodation is recognised on a straight-line basis over the period of the holiday. Non-rental income is recognised when the related product or service is provided to the guest. All revenue is recorded net of VAT.

Payment for accommodation rental income is received in advance of holidays commencing, and is recorded as 'payments on account' within Trade and other payables until the holiday commences.

A number of trading units on the holiday village are operated by concession partners. Revenue due in respect of such units is recognised on an accruals basis.

All revenue arises in the United Kingdom.

Cost of sales

Cost of sales comprise the cost of goods and services provided to guests. All costs to the point of sale, including direct employee costs, are included within cost of sales.

Operating segments

The Company has a single operating segment, being the Woburn Center Parcs holiday village.

Exceptional/non-underlying items

Exceptional/non-underlying items are defined as those that, by virtue of their nature, size or expected frequency, warrant separate disclosure in the financial statements in order to fully understand the underlying performance of the Company. Non-underlying items are those that are not directly related to the ongoing trade of the business or that are unrepresentative of ongoing performance. Examples of exceptional/non-underlying items are the costs of Company restructures, expenses incurred when refinancing the Company's debt and movements in the fair value of embedded derivatives.

Intangible assets

Software

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives, which is generally considered to be either four or seven years.

Costs associated with developing or maintaining computer software programs are recognised as an expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include the software development employee costs and an appropriate portion of relevant overheads. Computer software development costs recognised as assets are amortised over their estimated useful lives, which do not exceed four years.

Notes to the financial statements

for the 53 weeks ended 26 April 2018 (continued)

1. Accounting policies (continued)

Property, plant and equipment

Depreciation is provided on the cost of all property, plant and equipment (except assets in the course of construction), so as to write off the cost, less residual value, on a straight-line basis over the expected useful economic life of the assets concerned, which are typically as follows:

Installations	10 to 20 years
Fixtures and fittings	5 to 10 years
Motor vehicles	4 years
Computer hardware	4 years

Buildings are depreciated to residual value over 50 years. Land is not depreciated. Useful lives and residual values are reviewed at each balance sheet date and revised where expectations are significantly different from previous estimates. In such cases, the depreciation charge for current and future periods is adjusted accordingly.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in the income statement in the year in which they are incurred.

Maintenance expenditure

It is the policy of the Company to maintain its land and buildings to a high standard. Where maintenance expenditure increases the benefits that property, plant and equipment is expected to generate, this expenditure is capitalised. All other maintenance costs are charged to the income statement as incurred.

Leases

Leases are classified as finance leases if the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are capitalised at cost and depreciated over their useful lives. The capital element of future rentals is treated as a liability and the interest element is charged to the income statement over the period of the lease in proportion to the capital outstanding.

Rental payments on operating leases (net of any incentives received from the lessor and including minimum contractual rental increases) are charged to the income statement on a straight-line basis.

Inventories

The basis of valuation of inventories is the lower of cost on a first in first out basis and estimated net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less applicable variable selling expenses. Inventory provisions are created where necessary to ensure that inventory is valued at the lower of cost and estimated net realisable value.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently at amortised cost. A provision for impairment of trade receivables is made when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is recognised in the income statement.

Cash and cash equivalents

For the purposes of the cash flow statement and the balance sheet, cash and cash equivalents comprise cash at bank and cash in hand.

Notes to the financial statements

for the 53 weeks ended 26 April 2018 (continued)

1. Accounting policies (continued)

Current and deferred tax

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date and is measured at the amount expected to be paid to or recovered from the tax authorities.

Deferred tax is provided in full, using the liability method, on all differences that have originated but not reversed by the balance sheet date which give rise to an obligation to pay more or less tax in the future. Differences are defined as the differences between the carrying value of assets and liabilities and their tax base. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax on properties assumes recovery through sale.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the assets can be utilised.

Deferred tax is calculated using tax rates that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled, on the basis of the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are only offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred income taxes relate to the same fiscal authority and there is an intention to settle on a net basis.

Financial instruments

The Company classifies its financial assets into two categories, being fair value through profit and loss, and loans and receivables. Financial liabilities are classified as either fair value through profit and loss or other financial liabilities. The classification depends on the purpose for which the financial instruments were acquired. Management determines the classification of its financial instruments at initial recognition and re-evaluates this designation at each reporting date.

Other financial liabilities are carried at amortised cost using the effective interest rate method. Details of the Company's financial risk management objectives are included in the strategic report.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the balance sheet.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date. Interest on borrowings is treated as an expense in the income statement, with the exception of interest costs incurred on the financing of major projects, which are capitalised within property, plant and equipment.

Notes to the financial statements

for the 53 weeks ended 26 April 2018 (continued)

1. Accounting policies (continued)

Early termination costs

Costs associated with the early repayment of borrowings are written off to the income statement as incurred.

Derivative financial instruments

The Company does not trade in derivative financial instruments. Derivative financial instruments (interest rate swaps and caps) are used by the Company to manage its exposure to interest rates on long-term floating-rate borrowings. All derivative financial instruments are measured at the balance sheet date at their fair value. The Company does not currently hedge account for any derivatives. As such, any gain or loss on remeasurement is taken to the income statement.

Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Dividend distribution

Dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders. Interim dividends are recognised when paid.

Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. The resulting profit or loss, together with realised profits and losses arising during the period on the settlement of overseas assets and liabilities, are included in the trading results. Transactions denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the date of the transaction.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

New standards and interpretations

A number of new standards, amendments and interpretations have been issued by the International Accounting Standards Board with effective dates both prior to and post 26 April 2018.

The adoption of IFRS 16 'Leases' will result in the recognition of a right-to-use asset and a lease liability in respect of the lease on the Woburn site. In addition, the lease charge recorded in the income statement will be bifurcated between the amortisation of the right-to-use asset on a straight-line basis and the interest charge on the lease liability will be recognised using the effective interest rate method. This will result in the overall charge to the income statement being higher in the earlier years of a lease than in the later years. Operating lease charges are currently recognised on a straight-line basis in the income statement. The Directors are assessing the monetary impact of adopting IFRS 16, and are considering both the full and modified retrospective adoption approaches permitted under the standard.

The Directors do not anticipate that the adoption of any other standards and interpretations that have been issued by the International Accounting Standards Board will have a material impact on the Company's financial statements in the period of initial application, although the assessment is ongoing.

The loans from Group undertakings are unsecured and repayable on 28 February 2022. As at 26 April 2018, interest is payable at a fixed rate of 8% per annum on loans of £2.6 million and at 12% per annum on the remainder. Interest on all loans from Group undertakings are rolled up into the outstanding balance.

The secured debt is part of an overall £1,760.0 million (2017: £1,490.0 million) facility made available to the Group. The loans detailed below represent the issue proceeds recharged to the Company from CPUK Finance Limited, a related party which issued bonds on the external markets. The terms of the loans from CPUK Finance Limited are identical to the terms of the external borrowings.

On 15 June 2017 the Group issued an additional £100.0 million of Tranche A4 secured notes via a tap issue, at a premium of £9.5 million; this premium is being amortised over the period to expected maturity and amortisation of £0.1 million (2017: £nil) was credited to the income statement of the Company during the period. On the same date the Group issued £730.0 million of New Class B secured notes, divided into £480.0 million B3 notes and £250.0 million B4 notes. Part of the proceeds of these new notes was used to settle the Group's Class B2 secured notes.

Details of all tranches of the secured debt are as follows:

The tranche A3 notes have an expected maturity date of 28 February 2020 and a final maturity date of 28 February 2042. The interest rate to expected maturity is fixed at 2.666% and the interest rate from expected maturity to final maturity is 3.944%.

The tranche A4 notes have an expected maturity date of 28 August 2025 and a final maturity date of 28 February 2042. The interest rate to expected maturity is fixed at 3.588% and the interest rate from expected maturity to final maturity is 4.244%.

The tranche B2 notes had an expected maturity date of 28 August 2020 and a final maturity date of 28 February 2042. The interest rate to expected maturity was fixed at 7.000% and the interest rate from expected maturity to final maturity was 5.000%.

The tranche B3 notes have an expected maturity date of 28 August 2022 and a final maturity date of 28 February 2047. The interest rate to both expected maturity and final maturity is fixed at 4.250%.

10. Borrowings (continued)

The tranche B4 notes have an expected maturity date of 28 August 2025 and a final maturity date of 28 February 2047. The interest rate to both expected maturity and final maturity is fixed at 4.875%

The tranche B3 and B4 debt is subordinated to the Class A debt. All tranches of secured debt include optional prepayment clauses permitting the Group to repay the debt in advance of the expected maturity date. All tranches of debt are subject to financial covenants. The Directors have assessed future compliance and at this time do not foresee any breach of the financial covenants.

As all tranches have fixed interest rates, the Company is not exposed to interest rate fluctuations.

The maturity of the Company's borrowings is set out below. All amounts are denominated in £ sterling.

11. Financial instruments (continued)

Fair value of financial assets and financial liabilities

The fair value of the Company's gross secured debt (before unamortised debt costs) at 26 April 2018 was £197.3 million (2017: £200.7 million). The fair value of other financial assets and liabilities of the Company at the balance sheet date are approximately equal to their book values.

Fair value hierarchy

IFRS 13 requires fair value measurements to be recognised using a fair value hierarchy that reflects the significance of the inputs used in the measurements, according to the following levels:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
Level 3	Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

All of the Company's fair value measurements have been categorised as Level 2 (2017: Level 2) and fair values are derived directly from observable prices.

Fixed rate interest

At the balance sheet date, all of the Company's borrowings were at fixed rates of interest.

Financial risk management

The Company's financial risk management policies are set out in the strategic report.
